TECHNICAL SKILLS

Languages: HTML5, CSS3, Javascript ES6+, SQL, NoSQL
Applications: jQuery, Bootstrap, NodeJS, ExpressJS, MySQL, Seqeuelize, MongoDB, Mongoose, ReactJS, Handlebars

PROJECTS

Sure Vote | **Github:** https://github.com/jburz/sure-vote **|**
Deployed: https://mysterious-temple-64437.herokuapp.com/
- Sure Vote is an application that brings election voting into the digital age. It allows a user to vote securely on upcoming elections based on their location using facial recognition and two factor authentication.
- I was responsible for database management and two factor authentication
- Javascript, MongoDB, NodeJS, ExpressJS, Passport-local-mongoose, Nodemailer, Passport-2fa

Invitr | **Github:** https://github.com/jburz/Invitr **| Deployed:** https://scary-cat-18885.herokuapp.com/
- Invitr is a wedding invitation application that is designed to track wedding guests, contact info and food preferences as well as send RSVPs and receive notifications.
- I served as Project Manager and held daily meetings to ensure our team hit deadlines and was able to complete all parts of the project. I also was responsible for the user authentication, email setup via nodemailer and database architecture and management.
- Javascript, MySQL, NodeJS, ExpressJS, Passport, bcryptjs, Sequelize, Nodemailer

Emotional Media Generator (EMG) | **Github:** https://github.com/MizTangerine/Emotional_Media_Generator **|**
Deployed: https://miztangerine.github.io/Emotional_Media_Generator/
- EMG is a front end application that utilizes some third party apis to generate photos and gifs based on the users selected emotions. The user can save favorite media to view later.
- In this project I worked on getting giphy api calls functional as well as writing the code to save images and gifs to local storage.
- Javascript, HTML5

EXPERIENCE

General Manager   2017 – current
Jenson Books   Logan, UT
Managed operations for processing facility with staff of 180 employees. Oversaw hiring and implemented processes to drive retention and reduce employee turnover. Organized and standardized processes to drive efficiency and reduce labor costs.
Key Accomplishments:
- Developed a daily reporting template to track company productivity metrics and KPIs which helped increase average production rates by 18%.

EDUCATION

Full Stack Web Developer Certificate: University of Utah, Salt Lake City, UT
Bachelor's Degree of Accounting: Utah State University, Logan, UT
